

CrewPlay

Cricket Starts Here>>>

What Is CrewPlay?

CrewPlay is a dedicated cricket app built exclusively for amateur and community players who love the game but struggle with organization and tracking.

We help you organize matches, manage teams effortlessly, and bring professional-level structure and technology to local cricket.

From neighborhood games to club tournaments, CrewPlay ensures every match counts.

Key Problems in Amateur Cricket

Player Shortages

Finding enough players for matches is a constant struggle for local teams and organizers.

No Proper Live Scoring

Manual scorekeeping is error-prone and lacks the real-time engagement players want.

Poor Team Management

Coordinating schedules, rosters, and communication is chaotic without the right tools.

No Performance Tracking

Players have no way to track their progress, stats, or improvement over time.

Our Solution

Live Scoring

Real-time match scoring with ball-by-ball updates that keep everyone engaged and informed.

MVP System

Automated player-of-the-match evaluation based on performance metrics and contributions.

Player Statistics

Comprehensive tracking of batting, bowling, and fielding stats across all matches.

Match History

Complete archive of past games, scores, and performances for every player and team.

Community Player Search

Connect with local cricketers to fill your roster and build a stronger cricket community.

How CrewPlay Works

Create Team

Set up your team profile, add players, and customize your squad in minutes.

Schedule Match

Pick a date, invite opponents, and coordinate with your team seamlessly.

Live Scoring

Score matches in real-time with our intuitive interface during gameplay.

Track Performance

Review stats, analyze trends, and watch your skills improve over time.

Core Features

Player Stats

Detailed batting averages, bowling figures, strike rates, and economy rates automatically calculated for every player.

MVP Evaluation

Smart algorithms analyze performance data to identify the standout player of each match objectively.

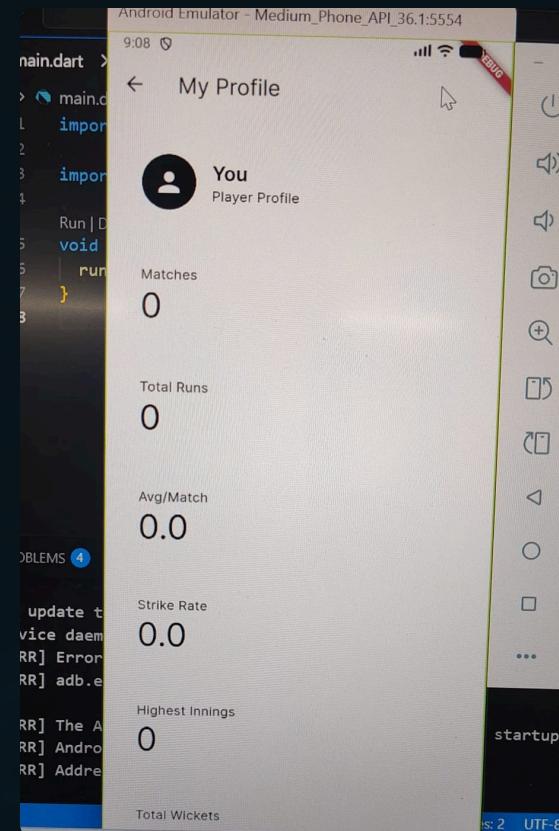

Match History

Access a complete record of every game played, with searchable archives and downloadable reports.

Community Connections

Discover nearby players, join pickup games, and expand your cricket network locally.

Why CrewPlay?

Built for Amateur Cricket

Unlike generic sports apps, CrewPlay is designed specifically for the unique needs of community and amateur cricket players.

Simple & Intuitive UI

Our clean, modern interface means anyone can start using CrewPlay immediately—no training required.

Organizes Local Matches

Transform chaotic weekend games into well-organized matches with proper structure and documentation.

Helps Players Improve

Track your progress over time, identify strengths and weaknesses, and connect with other passionate cricketers.

Future Vision

- 
- 1 AI-Based Insights
Machine learning algorithms will provide personalized coaching tips, opponent analysis, and predictive match insights.
 - 2 Tournament Automation
Full tournament management with automated brackets, scheduling, live leaderboards, and prize tracking.
 - 3 College & Club Partnerships
Official integrations with educational institutions and local clubs to formalize amateur cricket leagues.
 - 4 Marketplace Integration
Buy and sell cricket equipment, book grounds, hire coaches, and access premium training content—all in one place.

Join the Revolution
